Professional Summary

Computer Science undergraduate with strong expertise in **C++**, **Data Structures & Algorithms**, **DBMS**, and **Full-Stack Development**. Experienced in building scalable backend systems using Node.js, Express, and MongoDB. Passionate about problem solving and developing enterprise-level applications..

Technical Skills

- **Programming:** C++, Python, JavaScript
- **Full Stack:** React.js, Node.js, Express.js
- **Database:** MongoDB, MySQL, SQL
- **Core CS:** Data Structures, Algorithms, OOP, DBMS, Operating Systems, SDLC
- **Networking:** TCP/IP, Routing, Switching
- **Tools:** Git, GitHub, Postman, VS Code, Wireshark, Cisco Packet Tracer

Education

B.Tech, Computer Science Engineering	2022 – 2026
Government Engineering College, Vaishali	CGPA: 8.32

Projects

Full Stack Interview Portal	React, Node.js, Express, MongoDB
------------------------------------	----------------------------------

- Engineered a scalable full-stack interview preparation platform
- Enforced JWT-based authentication and role-based access control
- Designed RESTful APIs using Express.js and integrated MongoDB
- Applied validation and centralized error handling for secure API responses
- Tested APIs using Postman; structured system supporting 100+ interview questions

Gesture-Based YouTube Control System	Python, OpenCV, MediaPipe
---	---------------------------

- Created computer vision model enabling gesture-based media interaction
- Automated play, pause, and volume control using OpenCV

Portfolio Website	React.js
--------------------------	----------

- Built responsive portfolio showcasing technical projects and skills
- Optimized UI performance and deployed via GitHub Pages

Experience

Database Administrator Trainee, BSPHCL	6 Weeks
---	---------

- Executed and optimized 50+ SQL queries for reporting and data retrieval
- Strengthened database reliability through backup and recovery processes
- Improved query performance by indexing and restructuring tables

CCNA Training, BIPARD Skill Park	6 Weeks
---	---------

- Configured and analyzed 20+ network topologies using Cisco Packet Tracer
- Diagnosed connectivity issues through packet inspection using Wireshark
- Applied routing and switching protocols in lab environments

Certifications

Cisco CCNA Modules 1–3	Cisco Networking Academy
Python Essentials	Cisco Networking Academy
Introduction to Cybersecurity	Cisco

Soft Skills

Problem Solving • Team Collaboration • Communication • Adaptability • Time Management
